Create a new Azure SQL DB with the name 'Mission100+Yourname+DOB+DB' inside the resource group 'azurelib'.

Keep the Sample Db included while creating this Db.
You need to create a new DB server as well while creating this Database.

Remark: Ensure you are choosing the Basic tier while making the DB, to have low cost. Also allow azure services to is marked as enabled under the network firewall setting.

Assignment 2: Azure SQL DB Creation

Mark As Compl...
